ON THEFT CHARGE

MRS. ALTA ZANCHER ARRESTED AT FORMAN, N. D.

HEARING ON OCTOBER 3

Before Justice W. L. Johnson—Is Former Graham Woman, Charged With Taking Diamond.

Sheriff Ed Wallace returned Tuesday evening from Forman, N. D., with Mrs. Alta Zancher, who is wanted here on a charge of grand larceny, on the information filed by Prosecuting Attorney Wright. Mrs. Zancher was put in the county jail and probably bail will be given for her release.

The charge is the theft from the home of Mr. and Mrs. Ed Black of Graham three weeks ago of a diamond ring valued at $400, and the prosecuting winnesses in the case are the Blacks.

It is claimed by the prosecution that the Zancher woman was at the Black home at the time of the theft, saw and admired the ring and knew that it was placed in the china closet. According to the story Mrs. Zancher and John Noblett, both of Graham, arranged to leave that town to go to Minnesota. They engaged Ed Black, who runs an auto livery at Graham, to take them to Guilford on the night in question to catch the night train going north on the Great Western. The train passes through Guilford about 3 o'clock in the morning.

The story as told by the prosecution is that Mrs. Zancher came to the Black home in the evening to stay until time to take her and Mr. Noblett to Guilford. She remained downstairs and the Black family went to their sleeping rooms on the second floor. About 1 o'clock, Mr. Black took Mrs. Zancher and Mr. Noblett to Guilford.

The next morning the diamond ring was missed by the Blacks. As they had shown the ring the evening before to Mrs. Zancher while she was at their home, they suspected her at once.

Sheriff Wallace traced Mrs. Zancher to Minneapolis a few days later and went to that town, but could not find her. Recently she was located at Forman, N. D., and she was held there for Sheriff Wallace . Mr. Noblett returned to Graham several days ago.

Bond was given this afternoon for $500 and signed by A. M. Bright of this city. Mrs. Zancher was released from the jail. The preliminary hearing will come up before Justice W. L. Johnson on October 3.

Mrs. Zancher says she is not guilty of the charge, according to Sheriff Wallace.

CARVER WON MANY PRIZES.

Guilford Poland-China Breeder Got Away to the Good at the St. Joseph Fair.

E. E. Carver & Son, breeders of Poland China hogs, won many prizes at the St. Joseph interstate fair. In addition to the premiums which we mentioned in this paper last week, they received prizes as follows:

Second on aged Poland China boar, third on junior yearling, first on senior pig, and Junior Champion on the 610-pound boar Mammoth Expansion, farrowed September 1, 1912. The last pig was weighed over city scales when he started for St. Joseph, and to win at St. Joseph he had to defeat the Junior Champion at Lincoln, Topeka and Hutchinson.

They did not show any sows at the fair, as they lost three of their best by heat in one day during the hot weather.

MAKES THE BEST YIELD.

Early Sown Oats Are the Best, Says J. W. Griggs of Guilford.

The following is what J. W. Griggs of Guilford writes to the Missouri Ruralist:

We managed to get 50 bushels of oats to the acre despite the dry season of 1913 by plowing the ground, which last year was oat stubble, good and deep last fall. The first of April we harrowed it down to a good seed bed and drilled the seed in good and deep, putting in 2½ bushels to the acre. Planting was finished the second day and in the rain. Oats sown later about April 15 were too late to make a full crop.

Many men in this locality sow their poorest ground to oats and some sow oats in the corn stalks and just harrow the ground once or twice and let them go. Still others cultivate them in and quite a few disk and then harrow them in.

This is a good oat country and I have never known oats to fail when good seed was used and a good seed bed made for them if sown early. I sow the Texas Red because they are on early oat. They will do to harvest in ninety days; my oats sown April 1 were ripe July 1. Oats are a cool weather crop and the hot July sun often blasts them and makes them a light crop; whereas an early oat will mature before the season gets too hot.

A marriage license was issued Wednesday to Alva A. Hardisty and Sadie E. Pierson, both of Maryville.

Senator George E. Chamberlain of Oregon, chairman of the senate committee on military affairs, has come out flat footedly in favor of placing the navy on a better war footing than is the case at present. "As long as we maintain the Monroe doctrine, retain the Philippines, control the Panama canal and dominate the Pacific, which is our manifest duty, we must have a navy that is adequate to care for these conditions and meet emergencies," said Senator Chamberlain.

PERJURY CASE UP

THE CASE OF C. H. SCHAFF OF CLYDE ON TRIAL TODAY.

MASON LOST CASE AGAIN

J. C. Chappel Given $200 Verdict From A. O. Mason—An Appeal Will Be Taken by Mason.

The perjury case of the state vs. C. H. Schaff of Clyde was on trial today before a jury composed of Robert Craven, John Moberly, Charles Moore, Sherman Heflin, Alex Willis, W. D. Walker, W. H. McMurty, O. W. Swinford, Dan Anderson, E. S. Cook, D. L. Robey and W. F. Smith. The case went to the jury at press time this afternoon.

It is the first perjury case that has been tried in this county so far as the attorneys can remember.

The jury in the case of J. C. Chappel vs. A. O. Mason, an appeal case from J. P. court, brought in a verdict Tuesday evening for the plaintiff for $200. The justice court gave the plaintiff $240 and the defendant appealed the case to the circuit court, resulting in the circuit court jury giving the plaintiff only $40 less.

The verdict of the jury was:

"We, the jury, find for plaintiff that at the time the summons was issued in this case the defendant was in possession of the hay baler and plaintiff was entitled to the possession thereof, and the defendant wrongfully detained it from plaintiff, and we assess the value of the baler as of this date at $200.

"J. D. ELLIOTT, Foreman."

The defendant will file a motion for a new trial, so states his attorneys.

The case of Mason & Wilderman vs. John Growney, appeal from Justice court by defendant, the suit was compromised and dismissed at defendant's cost.

Grover Kelley was added to the regular jury panel to take the place of Sam Fisher, who was excused.

In the case of Florence Moon vs. Francis Workman et al., cancel deed, change of venue granted and case sent to Daviess county.

WILL HAVE TO PAY

MANY HERE WHO COME IN PROVISIONS OF INCOME TAX.

CITIZEN MAKES RETURN

Keep Track of Your Income From March 1, 1913, to March 1, 1914, So You Can Report to Collector.

Income Tax's Final Form.

Every unmarried person with income of more than $3,000 a year and every man and wife with joint income of more than $4,000 a year, must contribute to Uncle Sam's support.

Rates range from 1 per cent to 7 per cent, according to the size of income.

First taxable period from March 1 to December 31, 1913. First declaration must be made to collector between January 1 and March 1, 1914. The taxpayer will be notified of the amount he must pay on June 1, and must pay by June 30, 1914. Thereafter, the taxable period will be the calendar year.

Estimated that 425,000 persons will be affected, and the annual revenue will be $82,066,000. This, with the tax on incomes of corporations, will make a total of $115,000,000.

Annual cost of collection estimated at $1,200,000.

One thousand and five hundred government agents will be employed to check up returns and prevent evasion of tax. Tax to be paid at the source and deducted from salaries, dividends, etc., but this does not relieve the individual from making personal declaration to the collector.

Federal statistics just compiled to approximate the revenue that will be derived from the income in the Kansas City revenue district show that there are 6,800 whose incomes range from $3,000 to $20,000. There are 150 whose incomes are from $20,000 to $50,000.

Maryville is in the Kansas City district, and there are many here that will have to pay the income tax.

Woe to the individual who tries to beat the income tax, for the government will get him if he doesn't watch out. About 1,500 inspectors, deputy collectors and agents will act as spies to see that everyone who should pay, does pay.

At least 350 additional agents will be put to work when the tax goes into effect. These agents will pry into the affairs of the unsuspecting, who believe they can "get away" with something.

Wherever there is a suspicion that the tax is being evaded these agents will be called by the collector and a thorough examination will be made.

Penalties will be assessed against persons guilty of misrepresenting their incomes.

Representative Cordell Hull of Tennessee, who drew the tax provision, has made public a detailed explanation of the plan as it will touch the individual citizen.

"The treasury regulations soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of business," said Mr. Hull.

"Any person who keeps familiar with his business affairs during the year should have no difficulty in executing his tax return.

"The income tax is divided into two phases, the 'normal' tax of 1 per cent on the whole income above $3,000 and the additional tax that belongs with an extra 1 per cent above $20,000, and is graduated to 6 per cent above $500,000.

"Wherever the income tax is paid 'at the source' by a corporation for its employes or in similar cases, only the 1 per cent normal tax is so paid.

"The individual has to pay any additional tax himself. The provisions of the law requiring the tax to be withheld at the source does not take effect until November 1, 1913.

"For the first year the citizen will make return to the local internal revenue collector before March 1, 1914, as to his earnings from March 1, 1913, to the end of this year.

"The collector will notify him June 1 how much he owes and the tax must be paid by June 30. After next year the tax will apply on the full calendar year.

"If the income of a person is under $3,000, or if the tax upon same is withheld for payment at the source, or if the same is to be paid elsewhere in the United States, affidavit may be made to such fact and thereupon no return will be required.

"The tax covers all incomes of citizens of the United States whether liv-

BOOHER LIKES BILL.

Representative is Quoted Saying Currency Bill is Best Piece of Constructive Legislation of Kind.

In the opinion of Representative Charles F. Booher, who represents this district in congress, the pending currency bill represents the best piece of constructive legislation of its kind ever presented in the interest of the common people, according to a dispatch from Washington. Congressman Booher is quoted as saying:

"In its preparation and consideration, a special effort was exercised to subserve the general interests of the country. That this has been done no one who has studied existing industrial conditions and the merits of the bill will doubt. Tariff and currency are identical commercial factors. The holder of merchandise exchanges for money and the holder of money exchanges for merchandise, therefore it is evident that legislation which effects the market of one must effect the market of the other. In order to obviate a one-sided result of legislation upon the tariff, a readjustment of the currency system is imperative. In pursuing this course the Democrats have acted with foresight and with wisdom and avoided all possibility of reaction. There can be no panic with a flexible currency and a reasonable tariff, both of which will have been provided for the American people when the Democrats have completed their laudable work of the long and deliberative extra session."

HE IS NOT A CANDIDATE.

Governor Major Will Not Run Against Senator Stone.

According to a dispatch from Jefferson City, Governor Major returned Tuesday from his eastern trip, coming direct from French Lick Springs, where he gained six pounds. He declared that he has no intention of being a candidate for United States senator against Senator William J. Stone, though he appreciated the compliment of having been mentioned in that connection. He says the people of Missouri elected him governor for a term of four years and he proposes to keep faith with them by serving out that term. He says it is not fair to his friends nor to the people for him to attempt to quit in the middle of the term.

"The people elected me governor of Missouri for four years and I am going to serve four years," he said, when asked regarding his proposed candidacy. He says he was gratified the way he was received in Washington, and that he is confident that congress will pass a law giving federal aid to the roads of the several states.

The governor began his "period of rest" by a trip to Washington and an interview with President Wilson. He closed the vacation with a few days of real recuperation at French Lick, Ind. Probably the first official business to receive the governor's attention will be the appointment of the Missouri commissioners for the Panama exposition, for which there are 200 applicants.

HANCOCK IN OMAHA

MARYVILLE BOYS RECOGNIZE AND TALK WITH PIANO MAN.

DENIED HIS IDENTITY

Later He Admitted They Had Him Placed Right and Said He "Had Been Through Hell."

H. R. Hancock, formerly manager of the Field-Lippman piano store of this city and who left very suddenly on September 3, is in Omaha, according to Magnus Tate, who returned from that city Tuesday night.

Both Tate and Curtis Lyle of this city recognized Hancock in a short order restaurant. He denied at first that his name was Hancock, and later said that he did not know them. After the boys had said that they knew him and that they were not mistaken, Hancock said:

"Well, Magnus, it is me. I have been through hell since I left and I haven't got a cent. I have no place to sleep tonight."

According to Tate, Hancock's clothes were very shabby. His shoes were old and torn and he had on a blue serge suit and a sweater. His hair was gray. With Hancock was a man who looked as if he was a "bum."

Quite a conversation was carried on between Tate and Hancock in the restaurant. He went on to say that the people never would understand why he left.

At first Hancock had Tate promise not to say anything about seeing him, but later he told Tate that if he could better his condition by announcing the fact he saw him, to go ahead and do so.

When Tate was seen by a representative of this paper this morning he was positive that the man was Hancock. So was Curtis Lyle.

It is thought by many people who are in position to know that efforts are being made to locate Hancock. Whether this is true or not the Field-Lippman company declined to answer one way or the other. It is supposed by these same people that there was a shortage in the firm's accounts when Hancock left.

A Villain Unmasked

Comments

The story is one with a decided melodramatic flavor, but as portrayed here, is worked out very naturally and without any forcing of situations beyond their inherent dramatic value. The son, seeing his mother is about to marry a man who is a villain at heart, does some amateur detective work and rounds the fellow up as one of a gang of counterfeiters. The mother appears as a well-gowned, fascinating widow.

TARIFF BILL UP TO SENATE

House Adopts Conference Report on Measure.

SMITH-LEVER MOTION CARRIES

Several Members of Senate Who Are Dissatisfied With Certain Features of Measure Seek to Have Caucus Consider Report.

Washington, Oct. 1.—The Democratic tariff revision bill left the house on what the party leaders hoped would be its last journey to the senate. After many hours of debate the house adopted the main conference agreement on the bill, 254 to 103, almost a strict party vote, and by this action gave its indorsement to everything in the measure except the cotton futures tax.

At the end of a short, but bitter, fight for the adoption of the report, Representative Underwood, the Democratic leader, succeeded in carrying through the Smith-Lever cotton futures tax amendment by a vote of 171 to 161. Democrats and Republicans voted on this without regard to party and a large portion of the Democratic membership from southern states joined in the vigorous demand that the whole subject be carried over to another session of congress.

The cotton futures tax question now rests entirely with the senate. The house concurred in the Clarke amendment put into the tariff by the senate, but added the Smith-Lever-Underwood plan as another amendment. Unless the senate will accept this change, which has the indorsement of the president, the whole cotton futures plan will have to be considered again in the joint conference committee and again reported to both house of congress for action.

Several Democratic senators, who are dissatisfied with certain features of the bill, began a demand for a Democratic caucus to consider the conference report before it is taken up in the senate.

TRY TO LYNCH ACTORS

Those Playing as Turks Have Exciting Evening in Cettinje.

Cettinje, Montenegro, Oct. 1.—Riotous scenes, almost culminating in the lynching of the actors who represented Turks, marked the first performance of King Nicholas' play, "The Siege of Scutari."

When the actor, who played the role of Essad Pasha, came on the stage, the tumult became deafening. A youth sprang on the platform, revolver in hand, and with difficulty was restrained from shooting the actor. When a member of the cast, before the battle scene, began to describe the assault on Tarabosch, several veterans in the audience arose and denounced him as a liar.

When the third act showed the Turks in full retreat, the audience made a rush for the stage with the intention of lynching the wearers of the fez. The police were compelled to use force to restrain the frantic audience.

BREAKS PRISON RULES

"Student Convict" in Auburn Is Reprimanded Twice.

Auburn, N. Y., Oct. 1.—Thomas Mott Osborne, who as chairman of the state commission on prison reform, is in Auburn prison under the alias "Tom Brown" to study the prison system at first hand, was reprimanded on two occasions and may be disciplined before he leaves the institution. He "looked back", in the mess hall and was cautioned and later, while marching with his company, the broom shop gang, got out of line in the half hour exercise tour in the prison yard and again was rebuked.

Both infractions were trivial and unintentional, but if repeated will bring punishment.

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best for Tender Stomach, Liver, Bowels —Tastes Delicious.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

DOYLE ADDRESSES ROAD CONGRESS

Urges Management of Roads Be Taken Out of Politics.

Detroit, Oct. 1.—"Every advocate of good roads should be an advocate of the merit system as the vital means to that end," declared John T. Doyle, secretary of the United States civil service commission, in an address before the American Road congress here. "Very few of the 100,000 or more state and county road officials under existing legislation have any knowledge of road maintenance," he said.

"It is estimated that more than $150,000,000 a year is being expended for the construction and upkeep of our public roads," continued Mr. Doyle. "It therefore becomes an important economical essential that this great outlay be expended under trained, capable and honest supervision.

"The part that the civil service reform system takes in this problem is an aid to the appointing power in testing the character and fitness of candidates for employment, irrespective of their politics; seeing to it that employees do not indulge in political activity and in maintaining an efficiency system upon which promotions and removals will be based. The main essential is to take the management of public roads out of politics."

Why Not Read on a Train.

Many people believe that it is injurious to the eyes to read on a train, but few seem to know why. The reason is the added strain on the delicate muscles of the eyes. The motion of the train shakes the paper or book constantly, thus continually changing its position and its distance from the eyes, keeping the delicate muscles of the eyes in constant action to readjust the focus. Extra work is thus thrown on these tiny muscles, as the changing of focus sometimes a hundred times a minute.

Another cause of eye strain in reading on trains is the poor lighting usually encountered. Often people try to read their evening papers on a train or street car when the daylight is fading and before the car lights are turned on. Even with the lights on the situation is not greatly improved. The cars are frequently crowded and strap hangers sway back and forth between the paper and the source of light. Usually the light is high up in the center of the car ceiling and is badly placed for reading, the light being too far from the paper and the light rays being reflected into the eyes from the book or magazine.

Some trains now carry library cars which have the source of light behind and at one side of the reader.

The best and newest Pullmans have side lights for reading. The usual railroad car lighting equipment, however, is antiquated. Public opinion will do much to remedy these defective lighting methods. Illuminating engineers can be secured by railroads, and other public carriers to devise proper methods of illumination, so that no excuse can be offered for improper lighting conditions.

WILL GO TO SUPREME COURT

Right of President to Withdraw Lands to Be Determined.

MANY LARGE TRACTS INVOLVED

Point Comes Up in Trial of Midwest Oil Land Cases From Wyoming and Circuit Court of Appeals Decides to Ask for Opinion.

Denver, Oct. 1.—The United States circuit court of appeals for the Eighth district will ask the United States supreme court for a ruling on the question of the right of a president of the United States to withdraw public lands from entry. This announcement was made by Presiding Judge William C. Hook at Denver.

This request is made in the Midwest Oil company case before the court of appeals for argument at the present session. It involves the ownership of oil lands in Wyoming.

In making his announcement Judge Hook stated that the court had determined upon this course "because of the important issues involved." Upon the determination of a president's right to withdraw public lands is said to hinge the ownership of extensive tracts of oil lands in Wyoming. The outcome of the present case is expected also to have an important bearing on litigation involving public lands in other states.

SHOT BY DIVORCED WIFE

Los Angeles Man Fatally Wounded by Former Spouse.

Los Angeles, Oct. 1.—Rising from the breakfast table to answer the doorbell, Frank Ivy, a real estate dealer, was shot, probably fatally, by his first wife in the presence of his second wife and their two babies. After firing two bullets into her divorced husband's abdomen, Mrs. Ivy dropped the revolver. Ivy picked up the gun and fired a bullet at the woman as she ran down the street. Mrs. Ivy, the first, is now in jail, with a bullet wound in her leg.

The shooting, according to all accounts, was the result of a quarrel over the divorced couple's fifteen-year old daughter. The girl was given to the mother at the time of the divorce, nine years ago. Recently the child was taken from the mother and sent to Whittier reform school.

BURIED MINER STILL ALIVE

Entombed Man Able to Talk to Persons Attempting Rescue.

Centralia, Pa., Oct. 1.—The voice of Thomas Toshesky, who has been entombed in the Continental colliery since last Friday morning, was heard through a tube fifty feet long, which had been inserted in a hole bored through a wall of coal from an adjoining gallery. His first inquiry was about his family.

"Tell them not to worry too much," he said, "as I am in fairly good condition since I got several bottles of milk and whipped eggs, and I feel much stronger and more content. I had a long sleep after satisfying my hunger and thirst and feel certain that I will be rescued before another fall of top rock and coal can occur."

VICTIMS OF BLOOD POISONING

Two New York Surgeons Are in Precarious Condition.

New York, Oct. 1.—Two New York surgeons are in a precarious condition from blood poisoning, as the result of infection incurred in the performance of operations. Dr. Robert J Morrison, head of the faculty at Williamsburg hospital, is at the point of death. A needle with which he pricked himself, after an operation on a child carried an infection, which has spread throughout his arm and brought on a delirious fever.

Dr. Emil Boehm of Bellevue hospital is also in a dangerous condition, the result of an infection received while operating on a patient for removal of a carbuncle.

Confesses Poisoning Six Children.

Minneapolis, Oct. 1.—According to the police, Mrs. Ida Leckwood, thirty two years old, arrested, confessed to having murdered six of her children by poison. Mrs. Leckwood was arrested on a charge of having caused the death of her daughter, Viola, aged nine, who died Sept. 8, and Laura, eleven months, who died last July.

SAN FRANCISCO'S RED LIGHT GOES OUT

Passing of Barbary Coast Celebrated With Giant Revel.

San Francisco, Oct. 1.—The Barbary coast of San Francisco, known to tourists the world over, celebrated its final passing last night with a revel that packed its resorts to suffocation and thronged its streets with thousands of lookers on.

Promptly at midnight the police commission's ruling, prohibiting the further sale of liquor by women, went into effect and in a last effort to prolong the night that has made the "coast" notorious since the pioneer days there was a sudden switch from cocktails to grape juice. The police permitted this subterfuge last night, but the word went forth that hereafter only "straight saloons," from which women will be barred, either as entertainers or visitors, are to be permitted, regardless of the nature of the drinks served. Resort owners themselves admit that few of the thirty or more pretentious places will survive the onslaught.

Between 500 and 800 women and girls, suddenly thrown upon their own weak resources, afford a problem that the reform forces that forced the closing of Barbary coast are striving to meet.

British Mansion Is Burned.

Dover, England, Oct. 1.—Another of England's famous old historic homes, Waldershire Park mansion, residence of the Earl of Guilford, was destroyed by fire. The Earl of Guilford, who was in the residence, succeeded in saving many of the valuable oil paintings and some of the finest furniture. No evidence was found to connect the suffragettes with the fire.

ANNUAL COLT SHOW.

Held Recently by Dysart Bros. of Barnard—The Winners of the Show.

Dysart Bros. of near Barnard held their annual colt show recently and quite a number of the very best colts were in the show. There was also quite a good bunch of mules shown, fifteen in number, and not a common mule in the bunch, and good judges pronounced this the best averaged bunch of mules they had ever seen.

The judges were M. G. Safely of Bedford, R. G. Munday of Lathrop and Logan Dysart of Bolckow.

The following is a list of the winners:

Mules—Weanlings, first A. M. Sutton, Barnard; second, Walter Breit, Bolckow; third, Clarence Swan, Barnard.

Weanlings by Royal Chester No. 926—First prize, $50 cash, was won by Charles Shrader's beautiful filly. This filly is a full sister to Mr. Shrader's beautiful filly. This filly is a full sister to Mr. Shrader's great prize winning yearling Artie Dysart, and bids fair to be her equal if not her superior. Second premium went to a black colt only 20 days old, owned by Dr. J. P. Standley of Bedford, Ia. This colt, while young, is a typical saddle colt and had the style, action and conformation, and plainly showed his breeding, having for his dam the good mare Maggie Price No. 2113. Third went to a good filly owned by I. L. Miller, Graham, Mo.

The other colts were all good. Mr. Worth Smith of Barnard showed a handsome colt in this class, a nice mannered colt of good style, action and commanding appearance. He looked as though he ought to have had a ribbon, but when it came to the real fine points of a saddle colt he was lacking in some respects.

Weanlings by Royal Chester No. 1919—First premium was awarded to a fine bay filly owned by W. D. McBride, Barnard. Second went to a bay filly owned by Berry Miller of Graham.

Draft weanlings by Colon No. 32427 (47567)—First, Oren N. Lanning, Barnard; second, Tom Cundiff, Bolckow; third, Oren N. Lanning, Barnard.

Draft weanlings by General No. 77283—First, Joseph Drydale, Bolckow; second, T. W. Lawson, Barnard.
